Storytelling

In 1319, on the Île de la Cité, Alzébiel, a feared witch, was burned alive for her diabolical deeds. Before her death, she cast a curse, vowing to return and torment Paris. Today, as you embark on a peaceful cruise, Alzébiel's vengeful spirit resurfaces, determined to open the gates of hell and sink the boat. At nightfall, damned souls rise from the depths, ready to torment the passengers. Every shadow, every breath of wind carries the witch's mark. Specters haunt the decks, devilish laughter echoes, and the air fills with sinister whispers. Fortunately, Professor Dunoyer, a renowned occultist, is on board. Knowing the signs of Alzébiel's return, he is ready to act. He reveals that the curse can be broken, but only if the passengers unite. To survive, you must gather secret information throughout the boat. Together, you will discover clues, solve mystical riddles, and face your fears. Only flawless cooperation can banish Alzébiel and her minions back to hell.
